SUBJECT: Shelter Cove Towne Centre Remaining Items

Recommendation

Staff recommends Town Council forego the pier element included in the Shelter Cove Community Park preliminary master plan shown in Attachment A, and to authorize the Town Manager to reallocate these funds and any other unspent Shelter Cove Park funds toward the execution of the concept plan for Shelter Cove Connectivity, including the pathway enhancements and parking improvements illustrated in Attachment B. In addition, Staff recommends that Town Council authorize the Town Manager to negotiate and execute an extension with Shelter Cove Towne Centre, LLC (SCTC) to the 5-year performance period to install additional parking improvements in the Shelter Cove Area, currently set to expire on June 5, 2020.

Summary

Action from Town Council would provide final action on the proposed pier element, authorize redistribution of funds toward additional Shelter Cove area enhancements authorize staff to work with SCTC to complete remaining items that were included in the development agreement including maintaining access to developer contributions toward future parking improvements.

Background

The Town and Shelter Cove Towne Centre, LLC (SCTC) entered into a Development Agreement (Agreement) on November 19, 2014. While the Agreement had a five-year term which expired on November 19, 2019, there are outstanding elements of the Agreement that remain incomplete. These items include:

Community Park Pier

- The proposed pier illustrated on Attachment A was part of the initial park concept but required significant review and approval by OCRM. While OCRM did ultimately approve the proposed pier, it was much longer and narrower than what was initially desired. While the approved pier did not meet expectations, the Town accepted the permit to keep options open until the permit expiration date of May 11, 2022.
- The Agreement allowed both parties to forego the pier element.
- The money set aside could be used for another purpose if agreed to by both parties.
- Staff recommends that the Town not move forward with funding of the pier, but coordinate with SCTC to use the money identified for the pier for pathway enhancement in the Shelter Cove area.

Parking Facilities

- The Agreement required SCTC to contribute \$200,000 to the Town to be used toward future parking improvements within the Shelter Cove area. The \$200,000 was received upon closing of the land swap and had a 5 year period to spend the money.
- According to the Agreement, this money needs to be spent by June 5, 2020 or it needs to be given back to the developer.
- Staff has completed a concept for additional parking and other park improvements, to include: improved pathway enhancements and boardwalk connections along the marsh-front of Broad Creek and along Shelter Cove Lane, additional parking, improved view sheds to Broad Creek, additional public art locations, and gateway, directional and interpretive signage.
- Finally, the current budget had supplemental funding to be used toward this project. However, the project estimates exceed that allocation.
- Staff recommends that the Town Council authorize the Town Manager to enter into an agreement with SCTC which authorizes the utilization of the \$200,000 toward implementation of Attachment B, Shelter Cove Connectivity Plan, the pathway enhancement and parking improvements concept plan, and includes an extension of the performance period from June 5, 2020 to coincide with the expiration of the TIF in December 2024.
