**RE: FY 2015 Financial Statements – Through October (4th period)**

---

### General Overview

The attached financial statements represent the activity for the fourth month of the fiscal year. The beginning fund balances are preliminary and unaudited. They represent the latest available balances.

Real-estate related revenues vary in strength. Permitting revenues are up 20% as a result of the many new construction and redevelopment projects. Real estate fee revenues are 12% lower for the first four months compared to the prior year. The current four months are better than those in fiscal years 2010 through 2013, yet less than the very strong summer and fall period last year.

### General Fund

Through October, the General Fund has received 3.4 million or 9% of budgeted revenues and transfers in. The majority of property tax revenue will be received over the next few months and business license revenue will not be received until the end of the fiscal year. At October 31, 2014, total revenues and transfers in received are \$ 77,113 more than last fiscal year.

General Fund expenditures are \$809,368 and 1% higher than last year in terms of actual dollars and percent of budget expended. Variances are reasonable (including timing differences) and are explained on the actual vs. budget statement.

### Dashboards

The General Fund dashboards can be found on the Town's website and present a full year for fiscal years 2013, preliminary/unaudited 2014, and year-to-date for fiscal year 2015.

### **Debt Service Fund**

The expenditures recorded in the Debt Service Fund are related to the required prepayment of the full year's bond interest and principal payments funded by the Beach Preservation Fees as well as general obligation and certificate of participation debt service payments. The 2006 Beach Preservation Revenue Bonds matured during September initiating the release of \$1,900,110 of bond reserves. These funds have been transferred back to the Beach Preservation Fee and are specified for the fiscal year 2016 Beach Renourishment project.

The negative revenue in December of 2012 is attributable to suspended invoice billing associated with the implementation of new EMS Billing software. For several months beginning in February of 2013, revenues will be higher as staff catches up billing in the new software.

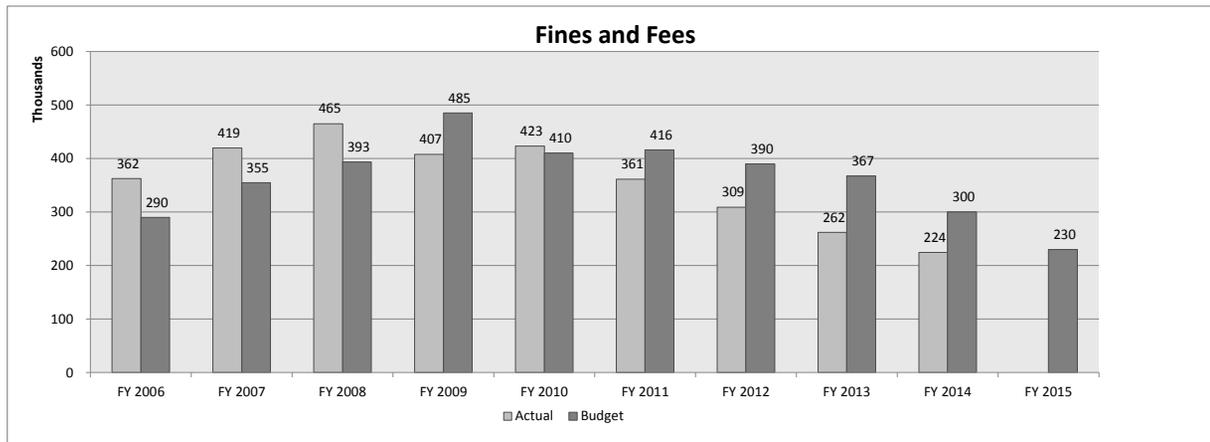

The negative revenues in June of 2013 and 2014 are attributable to an increase in the estimated uncollectible EMS revenue. The increase is associated with the implementation of the new billing software and the phase-out of the old software, i.e. the "clean up" of the old records is responsible for the majority of this increase.

The decreases in June in the latter years represent the annual entry for allowances for doubtful accounts receivable. Staff has cleaned up and sent all outstanding balances in the old system to the SCDOR Debt Setoff program. Therefore in fiscal year 2014, we increased the allowance to cover most of these balances as well as created an allowance account in the new billing system.

The decreases in the first quarter of FY15 over FY14 represent a more normalized collection cycle. In FY14, the Town was catching up collections due to the implementation of new billing software.
